

Program 58†

(Making Change 2)

Program Description: Write a program that will direct a cashier on how much change to give a customer. The program should have two inputs: The amount of the purchase and the amount received from the customer. The program will output the number of dollars, quarters, dimes, nickels and pennies need to make the correct change for the transaction.

Statements Required: input, output

Sample Output:

Enter purchase price 125.32
Enter amount received 140.00
Change Due 14.68

Dollars :	14
Quarters:	2
Dimes :	1
Nickels :	1
Pennies :	3
