# Program 122i

(cubes vs cubed)

Program Description: Print a table of cube roots and cubes of the numbers -25 to 25 inclusive. Print column headings for the table and then on each line print in order: the number, the cube root of the number, and the cube of the number.

Statements Required: output, loop control

Sample Output:

Number	Cube Root	Cube
-25	-2.92402	-15625
-24	-2.88450	-13824
-23	-2.84387	-12167
-22	-2.80204	-10648
{more information will be here}		
-3	-1.44225	-27
-2	-1.25992	-8
-1	-1.00000	-1
0	0.00000	0
1	1.00000	1
2	1.25992	8
{more information will be here		
23	2.84387	12167
24	2.88450	13824
25	2.92402	15625
